S: Eurostat, EU-SILC; Statistik Austria, Labour Force Survey (LFS); Statistik Austria, School statistics; Public Employment Service Austria (AMS); WDS - WIFO Data System, Macrobond. - <sup>1)</sup> Inequality of income distribution: ratio of the total income of the top fifth to the bottom fifth. Legend: In 2022, the income of the highest-income 20% of the population in Austria was 4.3 times higher than the income of the lowest-income 20%. Calculation at household level. <sup>2)</sup> Pensions are included in social transfers. Calculation at household level. <sup>3)</sup> NACE Rev. 2; Industry, construction and services (except public administration, defence, compulsory social security). <sup>4)</sup> Women: 15 to 59 year olds. <sup>5)</sup> Employed persons according to the labour force concept: normal weekly working hours of at least one hour, including persons on parental leave with a valid employment contract. Military service and civilian service do not count as gainfully employed. <sup>6)</sup> Part-time according to self-assignment. <sup>7)</sup> Annual average over all weeks, main job; calculation without persons on parental leave. <sup>8)</sup> Passed school-leaving examinations (excluding second or subsequent qualifications) measured by the arithmetic mean of the 18- and 19-year-old resident population. - n. a.: not available.
